REMINDER: There is no automatic entitlement for any student's grades to be rounded up to the next integer. In this course, your final calculated grade will only be considered for adjustment if it is between .1 and .5 below the next integer. This is a non-negotiable prerequisite.

Even if your grade meets the mathematical criteria to be rounded upward, there are still other factors to consider: whether you have zeroes in the gradebook and whether you've completed extra credit opportunities if any are offered. A full effort to earn the maximum possible grade must clearly be demonstrated before any grade adjustment is considered.
